## **INTRODUCTION**

Sika Fire Protection Limited (Sika Fire) has been a trusted name in fire protection in Papua New Guinea for over 41 years, having been established in 1982 in Kundiawa, Chimbu Province. We are proud to be 100% nationally owned, reflecting our strong local roots and commitment to the community.

## **WHAT WE DO**

Sika Fire Protection Limited (Sika Fire) has been a trusted name in fire protection in Papua New Guinea for over 41 years, having been established in 1982 in Kundiawa, Chimbu Province. We are proud to be 100% nationally owned, reflecting our strong local roots and commitment to the community.

## **OUR COMMITMENT TO QUALITY AND COMPLIANCE**

Sika Fire Protection Limited is dedicated to delivering fire protection services that meet the highest safety and quality standards. We use certified equipment from trusted global brands and ensure compliance with all industry regulations.

Our team conducts regular audits and maintenance to keep systems fully functional and compliant, ensuring the protection of our clients' assets and people.

## OUR PRODUCTS

We distribute a wide range of high-quality fire protection products, including:

- Fire Extinguishers, blankets, and related products from brands such as Flamestop and Ansul.
- Electrical equipment from leading suppliers like Tyco and Ampac.
- Hydraulic equipment, with pumps sourced from Skyline Pumps.

## OUR SERVICES

Sika Fire is Papua New Guinea's largest contractor for the supply and installation of hydraulic and electrical fire protection systems. Our services include:

- **Comprehensive Auditing and Servicing:** We offer annual service agreements across the country, performing inspections per industry standards. After each inspection, we provide a detailed report and a quote for resolving any non-compliant issues. Our expertise includes dry fire systems (e.g., fire detection and evacuation systems), wet fire systems (e.g., fire pumps, hydrants, hose reels), and portable fire equipment like extinguishers.
- **Design, supply, and installation** of fire protection systems for new and existing properties throughout PNG. Our services include:
  - Fire Sprinkler, Hydrant, and Hose Reel Systems: Specializing in suppression systems such as the Ansul R-102 Kitchen Suppression System and the Ansul Sapphire Fire Suppression System for sensitive environments like document storage and electronic equipment rooms (UPS, IT Rooms).
  - Fire Detection and Evacuation Systems: We provide full solutions for early detection and safe evacuation.
  - Portable Fire Protection Equipment: A comprehensive range of fire extinguishers, blankets, smoke detectors, and more to meet any facility's safety needs.

## TRAINING

We offer comprehensive Basic Fire Training designed to equip participants with the knowledge and practical skills to handle fire emergencies effectively. Our training program includes both theory and hands-on sessions, ensuring participants are well-prepared for real-life fire scenarios. Areas covered include:

- Understanding fire classifications
- Identifying and using different types of fire extinguishers
- Correct techniques for using fire extinguishers
- Risk assessment in the workplace
- Appropriate actions during a fire emergency
- Ensuring safe and effective workplace evacuations
- Fire safety equipment maintenance schedules
- Hands-on use of fire extinguishers with real-life fire scenarios
- Practicing fire action routines
- Using DCP, Foam, Water, and CO2 extinguishers on real fires
- Demonstrations of foam extinguishers and fire blankets

Training costs include refreshments, in-house training room hire, practical fire training materials & Certificate of Completion for each participant.
